5.2 Thus, as deposed by the Accounts Manager of the Appellant No. 1, the randling charges collected by the Appellant No. 1 comained to services rendered in connection with defivery of cars to oustomers. Thus, the eater handling charges were in no way connected with setting of parts and components used for requiring of cars as contained by the Appellant No. 1. Once consideration is charged and recovered lover and account price of vehicles. If not that the solid that the activity carried out by them is only for sale of vehicles. If not that the Appellant No. 1 concerns the customer's related to handling of vehicles and collected handling charges from the customer's and therefore relation of service provides' and "service receiver stands established and mount so charged was consideration for providing such vehicles. The Appellant No. 1 is thus, liable to pay earlies tax on ead handling charges under the category of 'Cargo Handling Service' as rightly kets is the improved order.

5.4 In view of the above, I find that the Appellant Nu. 1 has provided taxable services for which they charged/received consideration in form of handing charges. I, therefore, find that the adjust dating authority has correctly weld that the Appellant No. 1 is liable to pay service tax on handling charges along with interest.

Regenting confirmation of demand on commission paid to Directors on reverse onarge basis, the Appellant No. 1 commission paid to Directors on reverse commission paid to directors for the work done in their capacity as whethering directors is to be treated as an incentive in addition to salary and the same didn't come within the purview of commission; that as per provisions of the Company and commission formulation calls to them is salary and the same didn't come within the purview of commission; that as per provisions of the Company and commission formulation calls to them is salary only. S 2 As can be seen from the above darification, psymant made to Director of a Company for performance of management function is but listle to service tax. However, if any advice or consultancy is provided by such directors to the Combany for which they are companisated separately then they are table to service tax. In the present case is a relid by the adjustceting such driv, the Appellant No. 2 and 3 provided advisory/consultancy convides to the Appellant No. 3. 12. As regards imposition of penabics, I find that the Appellant No. 1 Is solu ostablished company managed by protestionals or dralways had knowledge by virtual of noome Tax laws line, their Dimetrics can work for other companies as well by rendering them their services as Directors and are islatutarily treated as distinct. persons from the employed employed relationship. I find that negative list regime is very l unequivasal, and except the categories monitorist morein, no activity is entitled for examption from levy of service tax leaving no access to harbor any doubt whatsoever. therefore, it transpires that though there was no antiopulty in law, the Appetants on their own interpretes the iew and not brought the relevant material facts to the notice of the department allowy point of trate. Hence required ingrodient of suppression of these table rule statement ato for imposing printing under Section 78 of the Act, is found to op existing in the case of Appollant No. 1 to 3 and such suppression was not without attention to evode the tax. I places reliance upon case law of the Hon's diCES (A) -Chennel, is the case of TVS Motor Co. Etd. reported as 2012 (28) S 5.34, 527 (77). Chennel).
