Fig. 1 find first there is no dispute that the possisions of Section 102 of the stinongs Ant., 1994 proving our Broadfact of service rox paid in respect of service provided to the Government random the specified calegories i.e. conserved as particles, commissioning, insufficient, comparted, firting out, repair, maintenance, to exactly on alteration for the purious section in the proposition. There is also no dispute that the nature of services provided to the

数数 数数 respondent is consumation related services to the Covarianent and Long's Authority atomic the P<sup>2</sup> 2015 (6 and the said surface were exempled of \$1.03.2015 (i.e., upto FY 2014 15) as per entry for 19 of Maga Exemption Not fination. Not 23/2012-30 Coord is also no dispute that the respectively said Service as of 88.82.982/- along with interest of Rs. 1, 0,700/- on delayed payment of 30 500 tax. However, the appellant had filed the appeal both on marrity as and, as on the products of unjust containment. The appellant had volumently contained as interests, manufactor of Ferm 5 above. The respondent has also filed the cross object to detail also, on the greaters as detailed at Form 5 along the Adjudicating Contractly under the improposition of a logical by the Adjudicating Contractly under the improposition of a logical product as a supply supportable or not. Now, I take up each issue or which at telesial contained, for decision

On the contention that the respondent has not submitted copy of any commant as hider of our resultioned at Poral Appliabase. I find that the refund claim in question was filed alongwith the documents including "Copies of Work Orders." on proof of the payment by each? and find of sub-contractors — copy of service for pula challens of sub-contractors as proof of sortice tox parally. Central modiff as manrioned at para 3 of the improped order. This diouss not discured by the attacliant before me. Further, as mentioned at pars-4 of the enoughed order. the solid claum with doctrarents were sont to the Sange Officer for verification and the Vertheation Report exted 30, 00.20 G submitted, also do not point for The issue of the artherissian of commany and the ability was verified on the having of dominants submitted with the claim and thus, no specific query was raison in the said verification report. Further, as menioned at ours 5 of the improgned order, fields find that subsequently when the SCN deced 07.32.2016. was issued to the respirators. These contracts/appreciates obtacs who had asked for, thos, from uses facis, it clearly unapplies that the Adjudication At the risk attention to the work of the section  $\theta$  and  $\theta$ . At hills had come to conclusion (3.8) (Ly)  $_{2}$ (appendignt into introduced the construction services to the Government appropries in respect of the contracts/agreements entered before 01-00-2015. Three, without asking for the petual Compacts treat the respondent, the Adjudgesting Authority has satisfied himself that the condition vis. in contract entered into before the 01.03.2015' of our Sul-Bortha. (1) of Scotton 102 ibid and been hellight in the present case. Further, say conviction is there in the such scenario 192 haid just to essure that the benefits are aveilable in respect of Blosc could see would see extend toford 01.0 920 S only. The adjudicating Amountity on the hasis of the work orders and on the basis of the verification report of the Range Office has satisfied tripped and found that the said contracts were actually entered refere 01.65 xittly and these, under the same stateds, do not find any informity in the impugated order. Further, I also find that it is not the nontradiction of the appullant that the centus its for which refund granted were entered then 01.00.2015 and no such evacates of any contradictory facts never compliates before the by the appullant Further, this issue was also not easied in the SCN dated 07.15.2016 issued to the respondence Purther, I also find that here is neither any specific requirement and make said Section 102 is id that the returned easier should invariably be accompanied by the topics of the course, should which had been found to be notinfed by the Adjed set up Arthority on the basis of other descriptions. I therefore, reject for contention being not subtainable in the cycle of two

it is further contended by the appellant that in absence of Obligation appears the appear of unjust enmobrages connect be verified and au (reformation and according authority has ented in holding that there is no unjustenrichment soit has weienschtly contended that refind of an is group at only when it is established that builden of eachas not been passed on to others as the Destrict of Unjust Enternient is a just and salmary specific in this regard, I find from the adjusticating authority has need that there is no linguisticomplement in the case. Whis firsting is based on continuate dated 29,11,2018. issued by Shri M. V. Khodo S. Co., Charmend Accountgat, University of through the said coalibrate. I find the the wordings used in the pertitions is fixed coassenfied the following mentioned RA bills remixed by Krishna Constitution Call Station Road, Taken (City, 16th 200 150 from the various Generalient Department and contify that no coming tax has been maskined or remove amount is reduced by somme for amount in below monthload bills from service received. Thus, the conditinate is issued on the basis of RA bills only and not on the basis of brian and recents like balance sheet or nuclit report. Even if RA falls do not show service bux amount, and even if on the data of issue of contilizate, no survice tax was received by the respondent, it is possible that they can allow the 98000 in monity, blo from the service morpionts. Therefore, in order to ascenais, as we whether the himlen of service and has been passed on as any other passed or mot. It is more easily to expuring imagnish reports of the cosperation. Profession the said certificare, against several enroies, it is mentioned that "Tender Archant is included by Service Tankerboard afterwards  $\Gamma$  . Thus, it is block that membras

The house of a furtilitation which states contradictory usings and which is assert without varifying till ancial accords and which praces that factorize and is not received? It control he halo that thereon of survice tax has not been passed on to service recipient on any other person. Thus, I find that the adjustmenting outhority has not properly verified the aspect of unjust employment age. The same is required to be or exactified in light of the above observations. My shows were a sphorted by site judgethers of Hom. CLISTAT in the case of Mys MADITIOCON DINA PLAT Versus COMMR. OF CLIST precentlying MIDMINGT 2015 (000) B.H.P. 45A (Tri. "5. I have constitly gone through the records and considered the encombeness reads on behalf of the Resource. The issue has in a agreety compass on the aspect of argust enrichment. The Annistrant Commissioner, while sunctioning the return, time red gain byte the fact, tate ther incidence of duty, for relacting good is sarryht for, him have passed on or otherwise. In my view, even if it is a case of reflect of received deposit, test of maket employment has to be possed on. The appellant during the proceedings before the Commesioner Modeate) Page authorities, a Chamered horosamherne certificare, action tens resuled on the basis of books of account of the appellant subsects it has been conflict that the around of reduced is shown in the belower short as recoverable from the Government. However, Despite this subtrision of tive appellore, tive Contralesioner (Appeals) rate rejected the claim of the appailmei on the granted that Ohis tered Accountant's certainale is not a constraints concerns to prove that the modificate of duty has not been  $\mu_{\text{CBSSM}}$  on  $\mu$  is type suggestive, if at all, the Commentation (Appendix). is not suggisfied with the Obsertered Assertation in configurate, he should how well-d for other decrements like belonce sheet and other backs z/renovat to check the authoritinity of the CA certificate, when he fulled to signor. A is a cellulal position of tau that, if the amount for amoth refund is small for has not been hocked as an emenditure in the unifit and they govern and proven in the esset side of the belower short as reasinghis, it is sufficient autience that the buttleness of duty from not been passed on.

6. In their of my answer discussion, the appeal is obtained by may of morand in the Assistant Commissioner of Customs. Refund Cell, Field Bett Custom House, Balland Ketats, Mumbai-lik, discollars to say that the Assistant Commissioner shall verify the books of accounts between sheet of the commissioner shall verify the books of accounts between sheet of the commission of a satisfaction that the amount of refund is shown as received in the refund shall be gravited it is also don't say that

the appellant shall be grouted interest on the infund in assumbman with knay of turbs. The adjudication of infund matter shall be completed within a nector of one mouse from the days of receipt of this arden."

In view of the feels and discussion hereit above, I led it appropriate test this issue of unjust excidingest needs to be relevantable; its light of day a cave observation at as to ascertain whe her or not the incidence of survice Tabladai introduct poid on such as had been passed on by him to any other person or survice requivers. Curteer, it is also assential to examine whether or not the arspendent has charged the service for and secondingly trised the facility to that expedient the arrespondential in their books of accounts. Hence, the matter accels to be remainded back to Adjudicating Altifacity for deciding aliesh-The Above essue on eight of any above observation after giving on appointmity of rearing to the responsibility. The respondent is also bineauch to put all envi evidences before the Augusticating Authority that may be asked for by the Adjusticating Authority when the matter is heard in remaind proceedings in order to enoble the Adjudicating Authority to exende the executivesh. These Endings of mine are supported by the arcision of the Hearber Fight Court of Gujerat in the Tax Appendixs 270/.014 in the case of Commissioner, Solvice USA, Absolutio baid  ${

Further, utils the contempor of the appellone that referred of the interest is not admissible as see of Section 62 of the Finance Act, 69%, in as much as soft-action (2) if Section-102 of the Finance Act, 69%, consider that frefund shall be made of all such Service Cast which has some collected with that the refund of interest can only be allowed if the provise of allowing refund exactly specifies of the land of interest, which is absoluted Section 100 ibid, that, payment of interest by the respondent was due to not paving solving tax in time and thus, it is by notice of performance which is not covered under Section 10%. Ibid, The responders has submitted that liability of interest or sea only illiability to pay haz is there. Since no service has liability of interest or sea only illiability as payment of Any Otterest. In this regard, I find that the supplying order is payment growing for the provisions of Section 100 of the Richard applicable to service tox matter under Section 80 of the Richard Act, 1994 people of the Section 100 of the Propose Act, 1994 people of the Section 100 of the Propose Act, 1994 people of the Section 100 of the Propose Act, 1994 people of the Section 100 of the Propose Act, 1994 people of the Section 100 of the Propose Act, 1994 people of the Section 100 of the Propose Act, 1994 people of the Section 100 of the Propose Act, 1994 people of the Section 100 of the Propose Act, 1994 people of the Section 100 of the Propose Act, 1995 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 people of the Section 100 of the Propose Act, 1996 peo

any service as and integer, if any paid or such dray/tex strates related of interest, poid on such service tax when are admissible for related under the said Section 100 and read with provisions of Section 118 of the Section AS of the Figure Act. 190 as made applies alone service are noticed under Section AS of the Figure Act. 1904, provided the related of notice too fiself is admissible made: the same procisions. When the section distributed of notice too fiself is admissible made: the same procisions. When the secure of admissibility of refund of service text in the present case on the issue of unit, a complement is directed to be examined by the Adjudicating Authority for which case is remainded book, this issue of two lightly of interest may also be taken up in two remaind proceedings by the Adjudicating Authority to Leptual my above observation.

It is conduct contended by the appellant that the adjudicating number by has not properly verified Cereal credit availed locally amounting to Rail  $50.70,235/ ext{-}$  and hithestion of Convai cronit of  $\Omega_{8},~86.90,717/ ext{-}$  for phyment of service tax. The respondent has continued that section 102 being a different enselment, indess specified in section 163, no other provision can be read into II. There is no reterence to Convet Great in Section 102, in this regard, I and must as then para-B of the impugned order, the respect fact theve suit nitted bilts. at an economic term and course of solvice temporal challens of enteriorization as eroid of servery Law paid by Contrast eronit, Three, in options that the respections ment we sould countrief as trace tax point by sub-communion and unifized, the same for  $ho_{AS}$  ment of service row during the modernal period. In this regard,  $\Gamma$  and that the adjuditioning northerity lines not examined the aspect that when service lex on curous service is exempled, whether an assessmean avail Convatic of the not In my view, this condition was required to be astisfied. However, I find first no bing is forthcoming from the opposited CIO. Since the matter is being conserved back to the adjudgesting authority on the issue of imjust emichatem, The adjunicating gretherity should also examine this issue of admissibility of have previded any dark regarding utilization of Cunvatorical by Trubespendent.
